

# the ultimate drinking water appliance.

# clean. simple. smart.

It's all about clean water. And a healthy life begins with clean, healthy water. It doesn't get any more basic than that

Just press a button and enjoy an endless supply of cold, hot or sparkling water.

Always bottle-free and freshly filtered, you're assured that your water never sits stagnant in a plastic container. And what could be simpler than replacing 8,000 -16 oz. bottles with a single Natural Choice filter. Good for you and the environment.

So turn on the tap and relax knowing you're doing the right thing for your body and the planet.

Who knew going green could be so simple.

Azul with Titanium Trim

InstaChill™

Every glass is freshly filtered and instantly chilled in a Sealed Water Pathway, where air never contacts the water supply. Unlike other coolers, ION's proprietary design has no reservoir to clean or sanitize.

Cooling Capacity

Dispense a 7 ounce glass of water every 30 seconds, for an hour... and ION makes sure it's 42°F or colder. No other cooler even comes close.

RapidHot™

Tea, cocoa, and even instant soups are delicious with piping hot, freshly filtered water. Up to 2 gallons per hour, convenient and ready whenever you are.

Sparkling Water Option Indulge your healthy lifestyle with the healthy alternative to soft drinks. Perfect with juice, a twist of lemon or lime, or try SPLASH™ flavorings from Natural Choice.

Pure Alert Filter Monitor

Now you know when to change your filters. Indicator lights switch from green to red when filter change is required. Filters should be replaced every 6-12 months depending on local water supply.

Save Energy

Why run an appliance when the building is empty? ION's SleepMode™ reduces energy consumption on evenings and weekends.

Save up to 75% on electrical usage compared to other coolers.
