healthy
alternative
to soft drinks

endless
supply of
sparkling
water

ECO
friendly

more
convenient
than
bottled
water

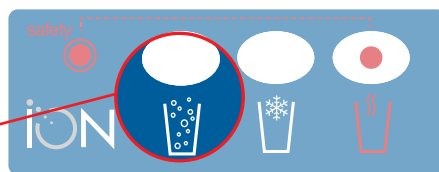

just
pennies
a glass

only with
ION®

Available on ION Models 903 and 904

How does it get so bubbly?

Simply Press a Button

Enjoy an endless supply of clean, refreshing sparkling water at the simple touch of a button.

Just pennies a serving, ION transforms ordinary tap water by combining crisp CO₂ micro-bubbles with ice cold, filtered water. The result is simply delicious.

Team together with fresh lemons or limes, mix with your favorite fruit juice or even drop in a variety of popular flavorings like MIO® or Crystal Light® and enjoy amazingly thirst quenching refreshment.

With no sugars or fructose added, ION Sparkling Water is the natural choice for a healthy, convenient and affordable alternative to soft drinks.

Sparkling Water Accessories

With ION's patented sparkling water system, cool, crisp hydration is just steps away. Easily add a refillable CO₂ Tank, Regulator and Pump, and you're ready to experience the endless bubbly refreshment that's ION.
